## MERCHANT SERVICES SOLUTIONS

Allied Wallet's Merchant Services options provide a customizable solution that offers you flawless functionality, security, and management tools. With our Online Payment Gateway, you'll have an all-inclusive payment solution that is easily paired with your shopping cart software.

### QUICKPAY

QuickPay is the simplest and most affordable solution for accepting payments on your website. It's secure, inclusive of all our back-end security and management tools, and you'll be able to begin accepting payments after a simple API integration.

### BUSINESS PRO

Business Pro is a more customizable payment solution that can be adapted to your business model and needs. With our RESTful APIs you can integrate this solution in any programming language and plugin virtually any other e-commerce solutions.

### MOBILE APP

Our new downloadable mobile app enables you to track all your transactions anywhere in the world. You'll have free access to your account right at your fingertips with customizable reports and in-depth management tools.

## CUSTOMIZE YOUR SOLUTION

Our new RESTful API enables you to plugin most e-commerce solutions to help power your business. With increased load-capacity and region-specific data connections, your payment solution is more customizable than ever before.
