MERCHANT SERVICES SOLUTIONS

Allied Wallet's Merchant Services options provide a customizable solution for accepting payments online. By referring these "merchants" to our state-of-the-art functionality, security, and management tools, you can collect percentage-based residuals.

QUICKPAY

QuickPay is the easiest and most cost-efficient solution for processing credit card payments on your merchant's website. It includes our award-winning security features and management tools, and they'll be able to begin accepting payments after a simple API integration.

BUSINESS PRO

Business Pro is an ideal solution for higher-volume merchants with easily customizable code so that our checkout page seamlessly integrates with the look and feel of their existing website. With our RESTful APIs, they can integrate our online payment services with almost any other e-commerce solution.

WHY ALLIED WALLET?

The benefits of partnering with Allied Wallet are endless with our easy-to-use Reseller interface that allows you to track your client's progress from start to finish. Our in-house underwriting and compliance teams ensure quick turn-around for a fast and simple approval process, letting both you and your merchant begin to reap the profits in as little time as possible.
